(frustrated) "What?? Rory you know I can't work the night shift! I'm busy tomorrow, besides I've never worked graveyard hours before. Urg- fine, but you owe me big time, you got that? I'm talkin like, your entire Arachno man and Ghost bat series, including the special edition comic!"

"Man... this place is more dead than-.... You know even though I'm alone I probably shouldn't make a kind of metaphor like that."

"So, this watch, it does whatever you tell it? Can it make phonecalls? Use GPS? Oh! Can you browse the internet?"

"Fred- are you serious? It's a cat. It won't hurt you dude. Here, see? He'll even let me pet him!"
